## Experience

### City of Modesto, Utilities Department

2018-2019

*Intern, Data Processing, UX Design*

- Digitized pen & paper workflows onto auditing software to protect users from fraudulent claims from contractors. Performed User Interviews & Testing to improve User Experience in the new process.
- Built a sorting algorithm with VBA to standardize Caltrans equipment logs. This freed up a weeks worth of man hours in manually standardizing the database. Created User Interface for user to sort edge-cases that could not be automatically sorted.
- Built an automated script with VBA to remove a redundant data entry process disliked by users. Allowed team of 50+ to not have to log in on-site weather conditions every morning.

### Shoob Photography

2017-2018

*Production Assistant, Editor*

- Edited & processed 1,000+ photos daily using Adobe Bridge, Photoshop & InDesign.
- Printed 1,000+ photos on industrial printers daily.
- Performed technical support with printers & networking.

### VM Designs

2015

*Intern, Web Design*

- Designed a website for a client using HTML, CSS, and JavaScript.
  - Oversaw communication with the client throughout project to ensure goals remained aligned.
  - Implemented usability features per user request.
- 

## Education

### San Francisco State University

*Visual Communication Design (in progress)*

---
